

## General Occupational Technology

### A 55 28 0 Associate in Applied Science

**Don't see a program that meets your specific needs? Then build your own program for success.** The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs. The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from associate-level courses offered by the college. Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry-level employment opportunities. All courses must be numbered 100-199 or 200-299. This program is designed for individuals who are not planning to transfer to senior college or university. Students wishing to transfer hours to a senior college or university should pursue an Associate in General Education (A 10 30 0). Contact a member of the Admissions staff today to begin building your program for future success.
