

Technical and Vocational Programs

A 45 40 0 Medical Assisting – Associate in Applied Science

CONCENTRATION OVERVIEW

The Medical Assisting curriculum prepares multi-skilled health care professionals qualified to perform administrative, clinical, and laboratory procedures. Course work includes instruction in scheduling appointments, coding and processing insurance accounts, billing, collections, computer operations; assisting with examinations/treatments, performing routine laboratory procedures, electrocardiography, supervised medication administration; and ethical/legal issues associated with patient care. Graduates of CAAHEP-accredited medical assisting programs may be eligible to sit for the American Association of Medical Assistants' Certification Examination to become Certified Medical Assistants. Employment opportunities include physicians' offices, health maintenance organizations, health departments, and hospitals.

Students pursuing the Associate in Applied Science degree will first graduate from the Diploma program in Medical Assisting. The program does not grant credit or advanced placement for experiential learning.

The Medical Assisting Diploma program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of Medical Assisting Education Review Board (MAERB). Commission on Accreditation of Allied Health Education Programs, 9355 – 113th St. N, #7709, Seminole, FL 33775 Phone: 727-210-2350 www.caahep.org

Upon completion of this concentration, graduates will be able to find success as employees with physician offices, health maintenance organizations, health departments and hospitals; perform administrative and clinical duties to include: answer telephone, greet patients, update and file patient medical records, complete insurance forms, correspondence, schedule appointments and referrals, billing, collections, bookkeeping, take patient medical history, vital signs, explain treatments, prepare and assist during patient examinations, collect specimens and perform basic lab testing, sterilize medical instruments, prepare and administer medications, authorize drug refills as directed, perform electrocardiograms, remove sutures and change dressings; apply basic knowledge of medical assisting during practicum using concepts of health and illness when implementing medical care; assume responsibility for continued career development in a changing health care system.

Student Learning Outcomes – Upon completion of the program, students will:

1. Perform administrative duties to include: answer telephone, greet patients, update and file patient medical records, fill out insurance forms, handle correspondence, schedule appointments, arrange for hospital admissions, laboratory services admissions, and basic bookkeeping.
2. Apply basic knowledge of medical assisting process and concepts of health and illness when implementing medical care.
3. Perform clinical duties to include: take patient medical history, vital signs, explain treatments, prepare patients for examinations, assist during an examination, collect lab specimens, basic lab testing, dispose of contaminated supplies, sterilize medical instruments, prepare and administer medications, authorize drug refills as directed, prepare patients for x-ray, take electrocardiograms, remove sutures and change dressings.
4. Demonstrate knowledge of Medical Assisting code of ethics and basic skills in applying ethical/legal principles in the delivery of care.
5. Assume responsibility for continued career development as related to expanding knowledge based on a changing health care system.

***This program offers a [Career and College Promise pathway \(CCP\) C45400H](#). Courses within the pathway are highlighted in yellow.**

Some Health Sciences and Wellness Programs may have additional requirements related to required GPAs, grades, and other progression policies required for graduation. Please see program handbooks for more information.
