**Policy 2-1**

**Page 1 of 1**

## **2-1 General Policy**

It is the purpose of the Board of Trustees, through the recommendation of the President, to ensure that all employees of the college shall be of such character, habits, philosophy, and competence that their influence upon the students, each other, and the community is wholesome and constructive. To that end, the Board seeks to employ persons who share in a commitment to the values expressed in the College's Statement of Values.
