2-20 Professional Development

The Board of Trustees recognizes the value of participation by faculty and staff in professional development activities designed to improve their personal and professional abilities. College personnel are encouraged to improve their skills and to actively pursue professional development and career enhancement opportunities. Professional development activities may include attendance at workshops and seminars, visits to other institutions, enrollment in college and university courses, and on-campus workshops conducted by consultants.

Full-time faculty members are required to attend planned college-wide professional development activities each semester. The President and Vice Presidents of the college shall give final approval for all college-wide professional development activities and approve procedures for the implementation of professional development in accordance with established college policies and procedures.
