

College of The Albemarle Procedure

Procedure Number: 5.1.1.3

Pages: 1 of 1

Title: Health Science Program Admission

Related Policy: 5.1.1 Admissions

Division of Responsibility: Learning; Student Success and Enrollment Management

College of The Albemarle's (College) Health Science and Wellness Programs are designated as limited enrollment programs. Factors for admission include, but are not limited to: clinical space availability, instructor-to-student ratios specified by the applicable accrediting/approving agencies and/or other limited instructional resources. In addition, Health Science Programs may have additional student enrollment criteria including, but not limited to: 1) official transcripts from high school and all other post-secondary institutions attended; 2) successful completion of required developmental courses; 3) minimum GPA requirements; 4) successful completion of clinical enrollment requirements (i.e., criminal and drug background checks); and 5) other content criteria.

Up-to-date program admission information, including current deadlines and requirements, is available on the College's website.
