**To qualify for the MA program, the student must meet all the pre-requisites to be eligible to enter MAT 143 without a co-requisite requirement.**

- \_\_\_\_\_ E. **Achieve and maintain a 2.0 minimum cumulative grade point average** on the transcript of record (most recent transcript with 12 accredited credit hours or more). If the transcript of record is not the COA transcript and the student has taken courses at COA, then the COA transcript must also show a 2.0 minimum cumulative grade point average (regardless of the number of hours). If the most recent 12-hour transcript of record is the high school transcript, the **unweighted GPA** will be used. Achieve a minimum of "C" grade on each relevant COA or transfer course. Only grades of "C" or better will be accepted for point earning, transfer purposes, and program completion.
- \_\_\_\_\_ F. **Applicants must have completed one unit of biology in high school that counts as at**

\_\_\_\_\_ **H. ATTEND THE MEDICAL ASSISTING PRE-ADMISSION MEETING**

After meeting the minimum PRE-ADMISSION qualifications for admission to the Medical Assisting program and submitting the Medical Assisting application, qualified applicants will receive a letter of notice and must attend a mandatory pre-admission meeting with the Medical Assisting faculty. The purpose of the pre-admission meeting is to inform prospective applicants about the Medical Assisting program and answer questions or concerns of the applicants. During the meeting, applicants may be requested to validate the accuracy of the academic data contained in their file. This academic data will be utilized in the ranking process.

- **Applicants failing to report at the scheduled time for the pre-admission meeting will have their names withdrawn from consideration unless they have previously notified the HSWP Administrative Assistant's office, Owens Center, Office 102, ext. 2283 or Ext 2304.**

Communication with potential students will occur through the student's COA email address only.**

## **MEDICAL ASSISTING PROGRAM NUMERICAL RANKING PROCESS**

Students who have met all the required criteria, have a completed Medical Assisting Program application on file, have attended the pre-admission meeting, and have validated the accuracy of the compiled academic data will be ranked based on a numerically objective and weighted ranking system if there are more applicants than allotted slots. This system is utilized to determine the most qualified students based on their performance including college or high school cumulative GPA (50%), and points awarded for courses completed in the Medical Assisting curriculum schema, previously earned degree(s), and health related work experience (50%).

**The numerical ranking system assigns points from the following two different areas:**

### **1) OVERALL GRADE POINT AVERAGE – 50%**

The cumulative OVERALL GRADE POINT AVERAGE section of the ranking process assigns points from the most recent college transcript. **This transcript must contain a minimum of twelve (12) semester hours or eighteen (18) quarter hours of non-developmental course work.** High school transcripts (unweighted GPA) will be used for ranking purposes if college transcripts do not meet the necessary criteria.

### **2) POINTS System – 50%**

The applicant will receive a point total based on specific courses within the Medical Assisting program that have already been completed, previous degrees earned and previous health care experience. Points are awarded as follows:

### **SPECIFIC COURSE POINTS**

**The Specific Course Points section of the ranking process assigns points based on academic performance from these seven (7) academic courses. All of these courses are required for the Medical Assisting program.**

- BIO 163 - Basic Anatomy (or BIO 168 & 169)
- ENG 111 - Writing and Inquiry
- PSY 150 - General Psychology
- MED 110- Orientation to Medical Assisting
- MED 118 – Medical Law and Ethics
- MED 121- Medical Terminology I
- MED 122- Medical Terminology II

**Points will not be assigned for BIO 163 or BIO 168& BIO 169 if the course(s) was/were completed five years or more prior to enrollment in first semester Medical Assisting classes.**

In order to receive points – the course must be listed on the COA transcript – either as a course taken at COA or approved for transfer credit to COA. The course must be completed prior to the admission deadline date and must have received a grade of “C” or higher.

**Points for courses will be calculated on the credit hours of the course multiplied by the letter grade earned; with a grade of A having the value of 4 quality points, the grade of B having the value of 3 quality points and the letter C having the value of 2 quality points. The grades of D and F will have no point value. Some courses are awarded bonus points if passed on the first or second attempt. Attempts at other colleges do count in this points determination.**

\*Basic Anatomy & Physiology - if a student elects to meet the Biology requirement of BIO 163 by taking the higher level BIO 168 and 169 courses, the ranking process will give **points** for the BIO 168 score as the grade for computing the 5 credit hour point total for BIO 163 (whether or not the student has completed BIO 169). BOTH courses must be completed with a “C” or better to receive **course credit** and both must be completed by the end of the Fall semester to continue to progress in the program).

**COMPLETION OF THE PROGRAM’S ANATOMY AND PHYSIOLOGY REQUIREMENT IS STRONGLY ENCOURAGED BEFORE ENTERING THE PROGRAM.**

## **MEDICAL ASSISTING POINTS GRID**
